

Chris Parnitsky

I am a Safety Advisor in the city of Saskatoon for the MSA, prior to starting at the MSA I was a heavy equipment operator for 20 years. In that time, I worked in multiple industries and gained valuable experience that I can carry forward today and share with our members.

I have a family with two great kids and a loving wife. In my off time I enjoy spending time at the lake, quadding or fishing. When I am not at the lake, I enjoy golfing or playing slow-pitch in and around this great province.

In 2016 I decided to make a career change, so I became a student at SaskPolytechnic in Saskatoon and earned my Occupational Health and Safety Practitioner Certificate. Since then, I have had the opportunity to work at other safety associations and as a Health and Safety Officer at a large construction company.

One of my favorite things to do at work is get out and see the members in the different communities around the province. With the experience and knowledge, I have gained over the years I believe that I can be a benefit to the members, so hopefully we can work together soon.
