

Nathan Costron

My name is Nathan Costron, I have been a Safety Advisor with the Motor Safety Association of Saskatchewan (MSA) since 2017.

I grew up on an acreage just outside of Craven, SK where I aspired to one day become a professional baseball player. Even though I ultimately fell short of that goal, it provided me with a wealth of opportunities, experiences and lessons learned that I still apply today in business and in safety.

Prior to joining MSA, I spent almost a decade in the Security industry working primarily as a Loss Prevention Investigator/Manager and moonlighting as a Baseball Instructor. In 2016, I finished my Bachelor of Business Administration where I majored in Marketing and Innovation & Entrepreneurship. A short year later in 2017, I found myself interviewing for an opening at MSA and since then, I've never looked back.

In 2021, I married my beautiful wife, Jyoshna and we are expecting a baby girl in June of 2022. We also have a fur-son, Kobe our Olde English Bulldogge. We spend a lot of our time getting together with family and friends for dinners and games. In my spare time I play golf, slow-pitch, hockey, basketball, snowboarding...pretty much any sport I can get my hands on, and I also coach and umpire baseball.

What I enjoy the most about my job is getting to travel around the province, building lasting relationships with our members, and contributing to meaningful work that affects people's lives in a positive way through health and safety. I also get to work with, and learn from, a great team of advisors with varied backgrounds and experiences. It's been a great privilege to work at MSA and I look forward to the years ahead as we continue to evolve.
