

Kyle Allin

My name is Kyle Allin and I joined the Motor Safety Association as Safety Consultant in September 2023. I'm looking forward to working alongside this great team of professionals and our members in Driving Safety Culture.

I bring a background in occupational health and safety at Integrated Justice Services and the Saskatchewan Workers' Compensation Board. I have extensive experience providing safety education, implementing Safety Management Systems, conducting audits, investigating incidents, and recommending corrective action.

I enjoy meeting new people and working with employers, committees, and employees to prevent injuries, reduce time lost, and enable return to work.

I earned an Occupational Health and Safety Practitioner certificate from Saskatchewan Polytechnic and I am committed to lifelong learning.

I grew up on a mixed farm south of Yorkton, Sask. I have worked in road construction and aviation earlier in my career.

Outside of work, I enjoy spending time outdoors with my wife, adult kids, and dogs, fishing, camping, hunting, and sledding. I also enjoy working on my own vehicles and doing landscaping projects.
