How are 2027 industry premium rates set?

The Saskatchewan WCB sets industry premium rates annually. The rate setting process ensures today's employers pay for the costs of today's claims.

Step 1: Industry classification

- The WCB groups employers into industry rate codes based on their primary business activity.
- This forms the WCB's classification system, which has 50 industry rate codes.
- The collective experience of all employers in each industry rate code determines the industry premium rate.
- All employers in the same rate code start with the same industry premium rate.

Step 2: Industry premium rates

- The WCB uses an actuarial rate model to determine annual industry premium rates.
- The WCB projects expected claim codes for the upcoming year.
- Industry premium rate = costs/payroll.
- Premiums cover all current and future costs for claims that occur during the year.

Step 3: Experience rating

- The experience rating program adjusts the industry premium rate based on an employer's individual claims experience.
- Employers can receive a discount or pay a surcharge depending on their claims experience.
- Reducing the number and cost of claims through injury prevention and workplace safety can improve your experience rating and reduce the WCB premiums you pay.

Online services reminder: in early December 2026, you will be able to view your 2027 industry rate, including your experience rating, through your WCB online account only. Sign up for your WCB online account by visiting **wcbsask.com**.

Updated payroll forecasts

Assessable payroll ($ millions)	Used in 2026 rate setting	Updated 2026 projection	2027 projection
C61 rate code payroll	$1,359.23	$1,352.34	$1,419.96

The overall increase to the model premium rate for C61 is the result of increasing claims and related administration costs, which increasing payroll forecasts for 2027 partly offset. The largest change in claims in dollar terms is related to medical costs. Recognizing the WCB's strong funded position, the WCB reduced the C61 premium rate by an additional five cents for 2027.
